DETAILED ACTION

Response to Amendment

1. Applicant's amendment and remarks received 25 January 2006 have been entered and overcome the objections to the specification and drawings.

Allowable Subject Matter

2. Claims 1-7 are allowed.
3. The following is an examiner's statement of reasons for allowance: Claims 1-7 were previously allowed in the *Ex Parte Quayle* action mailed 30 November 2005. The reasons given in that office action are repeated in this office action.
4. Regarding independent claim 1, the prior art of record neither shows or suggests an organic electroluminescent device comprising, in addition to other limitations of the claim, an emitting layer having a blue-emitting layer and a reddish orange-emitting layer, wherein the blue-emitting layer comprises a dark blue-emitting layer and a light blue-emitting layer. Due to their dependency upon independent claim 1, claims 2-7 are also allowable.
5. The subject emitting layer described above structure is provided for improving the luminous efficiency of the organic electroluminescent device. The design is new and unique to the art.
6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
